Simon Industrial

X-ray development for non-destructive testing

*Quality and
detail in
NDT*

Simon Industrial developer has quietly become the leader in non-destructive industrial testing for conventional x-ray development. Both the Simon Industrial developer and fixer were formulated to provide superior detail in all development cycles and in all processors.

Simon Industrial has been used and trusted by:

- The U.S. Air Force to x-ray Air-Force-One
 - U.S. Army to x-ray un-exploded ordnance
 - Aberdeen Proving Grounds for trajectory study
 - All of the best known aircraft engine manufacturers in the U.S.
 - Spark Plug Manufacturers
 - Auto Racers
 - Machine screw manufacturers
 - Boiler Manufacturers
- ...and in almost every other imaginable industrial application.

Simon Industrial Developer and Fixer
