# UHC

## Ultra High Contrast Mammography Developer

*Superior contrast  
and detail for  
medical imaging  
films.*

**UHC Mammography Developer** was designed for the demanding needs of today's superior ultra premium imaging films including films from AGFA. Approved for use by AGFA with HDR-C Mammography films, UHC also works well with other mammography films and is versatile enough for general radiography. UHC will work well in all processors, dedicated or non-dedicated, standard processing or extended, and through a range of operating temperatures.
