

June 20, 2000

To whom it may concern:

This is to certify that the Chemical products manufactured by H.R. Simon and Company are compatible with MR2000 from Kodak. Our solutions are capable of providing results consistent with the film manufacturer's specifications. Please see the chart below illustrating a comparison between H.R. Simon Chemblend brand chemicals and Kodak RP.

Should you have any questions, please contact your dealer support manager.
