**Chemblend Screen and Feed Tray Cleaner** was developed specifically to clean cassettes, feed trays, darkroom countertops, leaded glass, and many other sensitive, non-sterile surfaces. Chemblend Screen and Feed Tray Cleaner is made for use with mammography systems, but can be used anywhere you use film, cassettes or x-rays. *The use of Chemblend Screen and Feed Tray Cleaner* can also aid in compliance with ACR and FDA guidelines, specifically with the Mammographic Quality Standards Act.

**Chemblend Screen and Feed Tray Cleaner's** uniqueness and ease of use is obvious as soon as you see its natural purple hue in a spray bottle. Because it is powerful, each pump sprays a metered dose of 0.14 milliliters. Each bottle of Screen and Feed Tray Cleaner will clean up to 450 cassettes which makes it an economical choice as well.

## Chemblend Screen and Feed Tray Cleaner

Stock Number

S70-028

*Each case contains 6 - 8 ounce pump-type spray bottles*
